## Profile

[in linkedin.com/in/rizhenkov](https://www.linkedin.com/in/rizhenkov)

## Summary

As an experienced Full-stack Developer with expertise in PHP and Vue.js, I have a comprehensive understanding of software development and team leadership.

I am committed to delivering high-quality, scalable solutions to drive technological advancements and achieve organizational goals.

## Recent Work Experience

**Metro OTC LLC. (ex OTC Stores LLC.)** **Jan 2023 - Present**  
Tech Lead, Senior Full-stack Developer NJ, United States - Remote

Continuing work with the same team under a new brand, I transitioned to the role of Tech Lead while maintaining active involvement in full-stack development. Led successful launch of four projects, including a new online store, and optimized processes and infrastructure.

- Developed a customizable modular e-commerce engine on Nuxt 3 (utilizing Layers technology) and deployed multiple instances on it.
- Created the VanKeeper application for inventory management of Mobile sales, enhancing Van-team efficiency.
- Designed a Chrome extension to semi-automate payments in the partner insurance system, resulting in improved transaction processes.
- Conducted a dozen interviews and successfully onboarded new team members.
- Organized and systematized documentation in Notion platform, contributing to enhanced knowledge sharing.
- Improved development processes by implementing ADR system, GitFlow, detailed Development Workflow, and prioritization framework (RICE).
- Crafted technical requirements and specifications for new projects, ensuring alignment with business objectives and technical feasibility.

**Other companies** **Jul 2009 - Jan 2023**

The comprehensive list of companies I have worked for since 2009 can be viewed in the complete electronic version of my resume.
