## Profile

[in linkedin.com/in/rizhenkov](https://www.linkedin.com/in/rizhenkov)

## Summary

As an experienced Full-stack Developer with expertise in PHP and Vue.js, I have a comprehensive understanding of software development: from drafting tech requirements to deploy and maintenance.

I am committed to delivering high-quality, scalable solutions to drive technological advancements and achieve organizational goals.

## Recent Work Experience

**Metro OTC LLC. (ex OTC Stores LLC.)** **Jun 2021 - Present**  
Senior Full-stack Developer NJ, United States – Remote

Led successful launch of four projects, optimized development processes and infrastructure. While maintaining active involvement in full-stack development, I also occasionally acted as a Team Lead.

- Enhanced and maintained a complex Symfony project and few Vue projects in the OTC sector, implementing new features, conducting refactoring, and optimizations.  
Successfully migrated production from Symfony 5.4 and PHP 7.2 to Symfony 6.4 and PHP 8.1.  
Led the transition from a monolithic to a API-focused microservices architecture
- Developed a customizable modular e-commerce engine on Nuxt 3 (utilizing Layers technology) and deployed multiple instances on it.
- Created the VanKeeper application for inventory management of Mobile sales, enhancing Van-team efficiency.
- Designed a Chrome extension to semi-automate payments in the partner insurance system, resulting in improved transaction processes.
- Conducted a dozen interviews and successfully onboarded new team members.
- Organized and systematized documentation in Notion platform, contributing to enhanced knowledge sharing.
- Improved development processes by implementing ADR system, GitFlow, detailed Development Workflow, and prioritization framework (RICE).
- Crafted technical requirements and specifications for new projects, ensuring alignment with business objectives and technical feasibility.

**Other companies** **Jul 2009 – Jan 2023**

The comprehensive list of companies I have worked for since 2009 can be viewed in the complete electronic version of my resume.

## References

**A. Lifshiz (ex-chief, after 7 years co-op)**  
in his recommendation letter (in part):

*"I recommend inviting Artiom to participate in projects of any difficulty. He is a highly organized, reliable and very strong specialist who can not only complement any team, but also lead it."*
